

July 2010

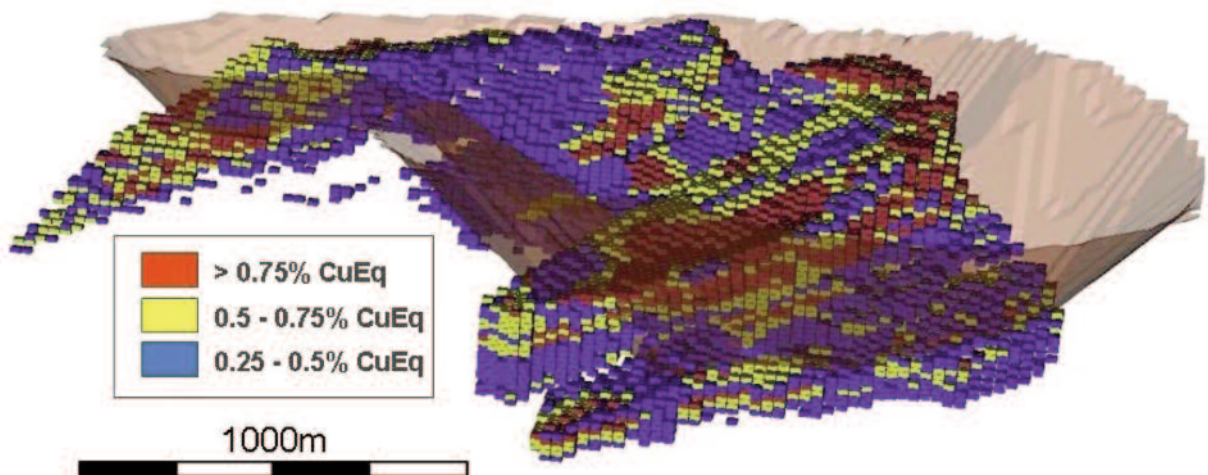

## Santo Domingo Project

- Indicated Resource of 485 Mt at 0.57% CuEq (NI 43-101 compliant)
- Superior infrastructure – paved highway (1km), railway and power (7km), port and smelter (60km), airport (40km), low elevation (1000m)
- Great location facilitates much shorter construction period than comparable projects (projected startup 2013/14)
- Project timing is perfect to take advantage of a looming supply gap in the copper and iron markets
- Projected annual production of 65,000t Cu and 2.7Mt of Fe concentrate
- Copper flotation using sea water confirmed by metallurgical test work
- Project development now independent of fresh water source
- Low cost magnetic iron extraction process confirmed by test work (currently in use at the Candelaria magnetite recovery plant)
- Pre-Feasibility Study in progress
- Quadra Mining (TSX:QUA) holds a 7.9% stake in Far West Mining

## FACTS

<b>Location:</b>	Region III, Chile
<b>Deposit:</b>	Copper, Iron, Gold
<b>Ownership:</b>	100% (subject to 2% NSR)
<b>Stage:</b>	Pre-Feasibility
<b>Resource:</b>	3.34 billion lbs of Cu 80 million tonnes of Fe con 688,000 ounces of Au

Santo Domingo copper equivalent block model with superimposed pit outline (not optimized and not NI 43-101 compliant)

## Georgetown Project

- Target is high grade Broken Hill Type mineralization such as the Cannington deposit (45 Mt @ 520 g/t Ag, 11.9% Pb, 4.8% Zn)
- Proprietary airborne EM and magnetic datasets to identify regional targets under cover
- Land package of ~340 sq km in four project areas, recent addition of highly prospective ground with small high grade occurrences
- 100m wide zone of alteration and mineralization discovered during 2008 drilling at Robin Hood
- Numerous surface showings over an area of 3000m x 600m with high grade samples at Robin Hood (e.g. 13.5% Pb, 588g/t Ag, 2.9g/t Au)
- 2009 drilling intersected 1.4% Pb and 6.5g/t Ag over two metres at Robin Hood
- 2010 drilling at Perryvale designed to follow up geochemical anomalies and strong alteration

### FACTS

**Location:** Queensland, Australia  
**Target:** Silver, Lead, Zinc (BHT)  
**Ownership:** 100% (subject to 2% NSR)  
**Stage:** Exploration

## Management

### Canada

Richard Zimmer, President and CEO  
 Iain MacPhail, CFO  
 Lars Beggerow, Exploration Manager

### Chile

Enrique Puga, General Manager  
 Rodrigo Gómez, Exploration Manager Chile  
 Juan Carlos Cornejo, Administration Manager  
 Oscar Leon, Land Manager

## Corporate Information

Capital Structure (millions)  
 Issued & Outstanding: 62.4  
 Warrants (avg. price \$2.75): 4.9  
 Options (avg. price \$3.60): 5.1  
 Share price (52 week hi-lo): \$ 1.76-6.00

## Directors

Robert E. Hindson (Chairman)  
 Richard N. Zimmer  
 John R. Brodie  
 Lee A. Graber  
 Richard A. Mundie  
 David R. Reid  
 Donald R. Seaman
